

Partner Recruiting

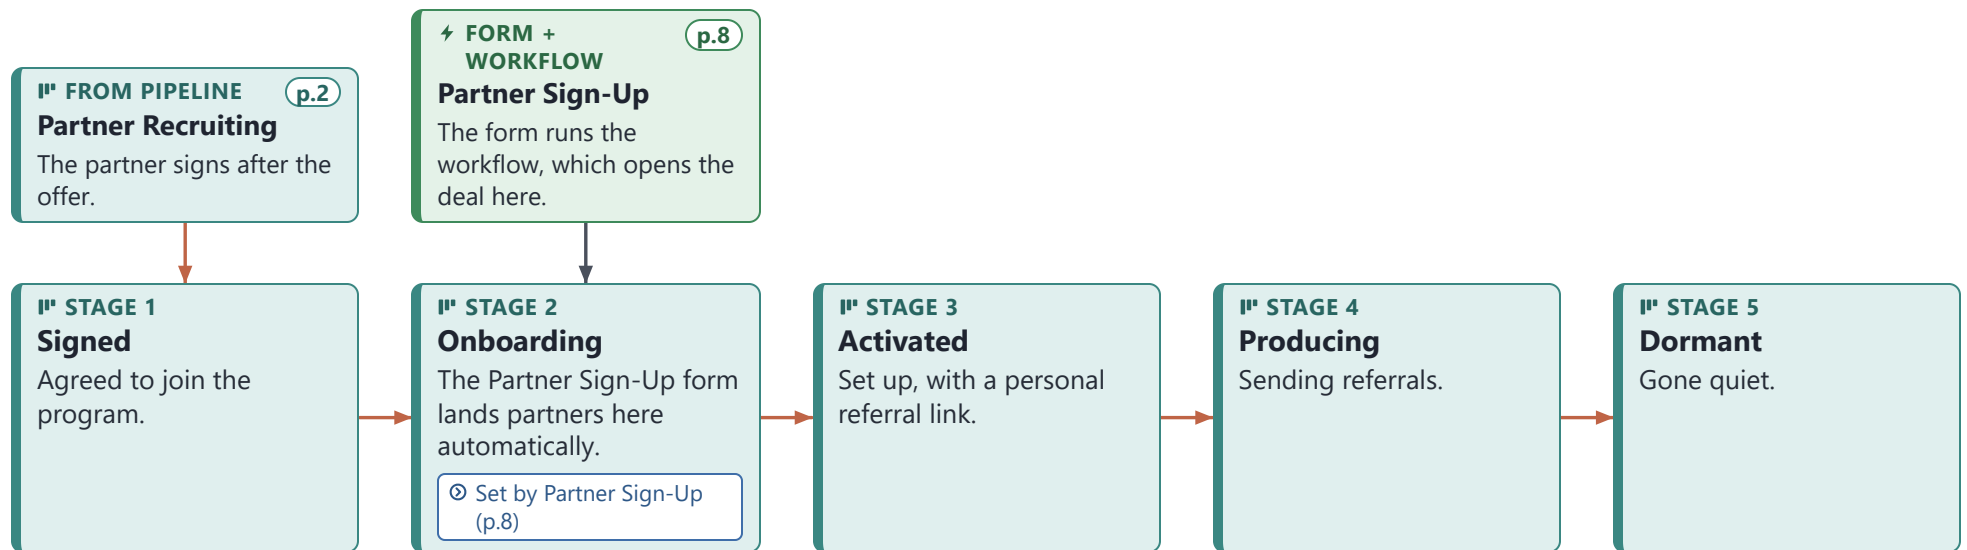

Businesses we are recruiting as partners. A card moves right as the prospect warms up.

Arrows show the order of stages. A person moves the card unless a box says it happens automatically.

Partner Lifecycle

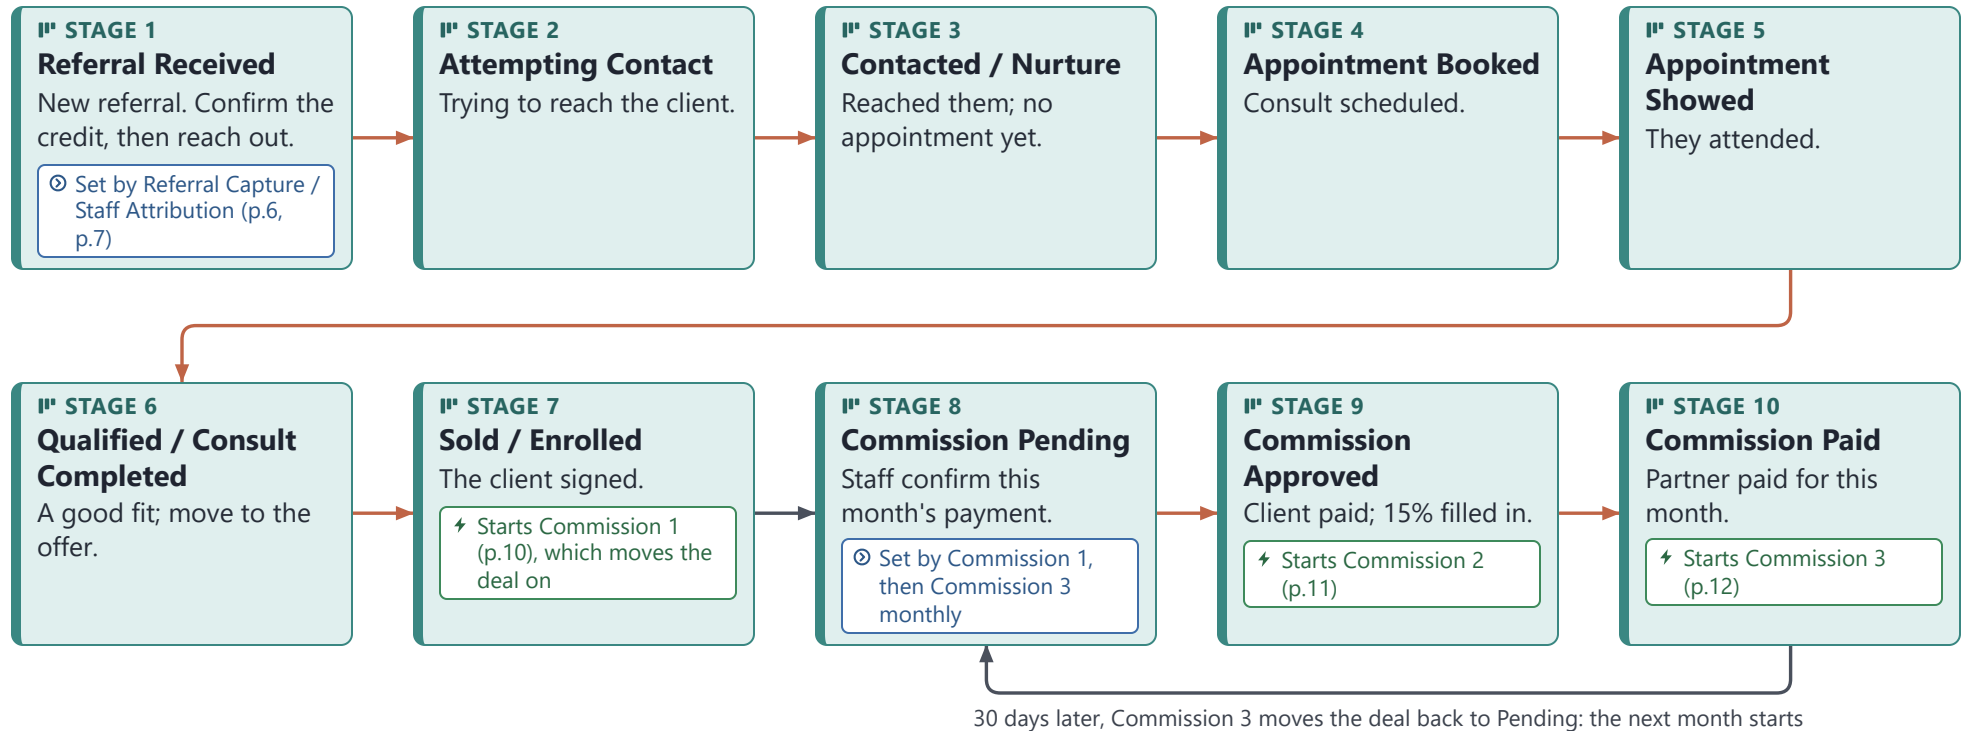

Partners after they sign. Shows who is actually sending clients.

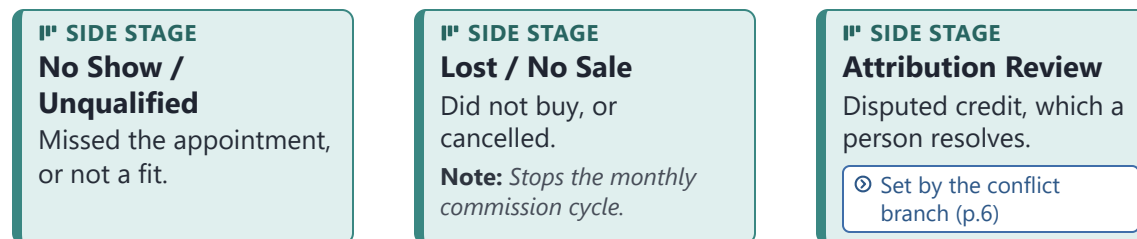

Arrows show the order of stages. A person moves the card unless a box says it happens automatically.

Referred Leads

Clients that partners refer. The last four stages run the 15% commission, once a month for as long as the client pays.

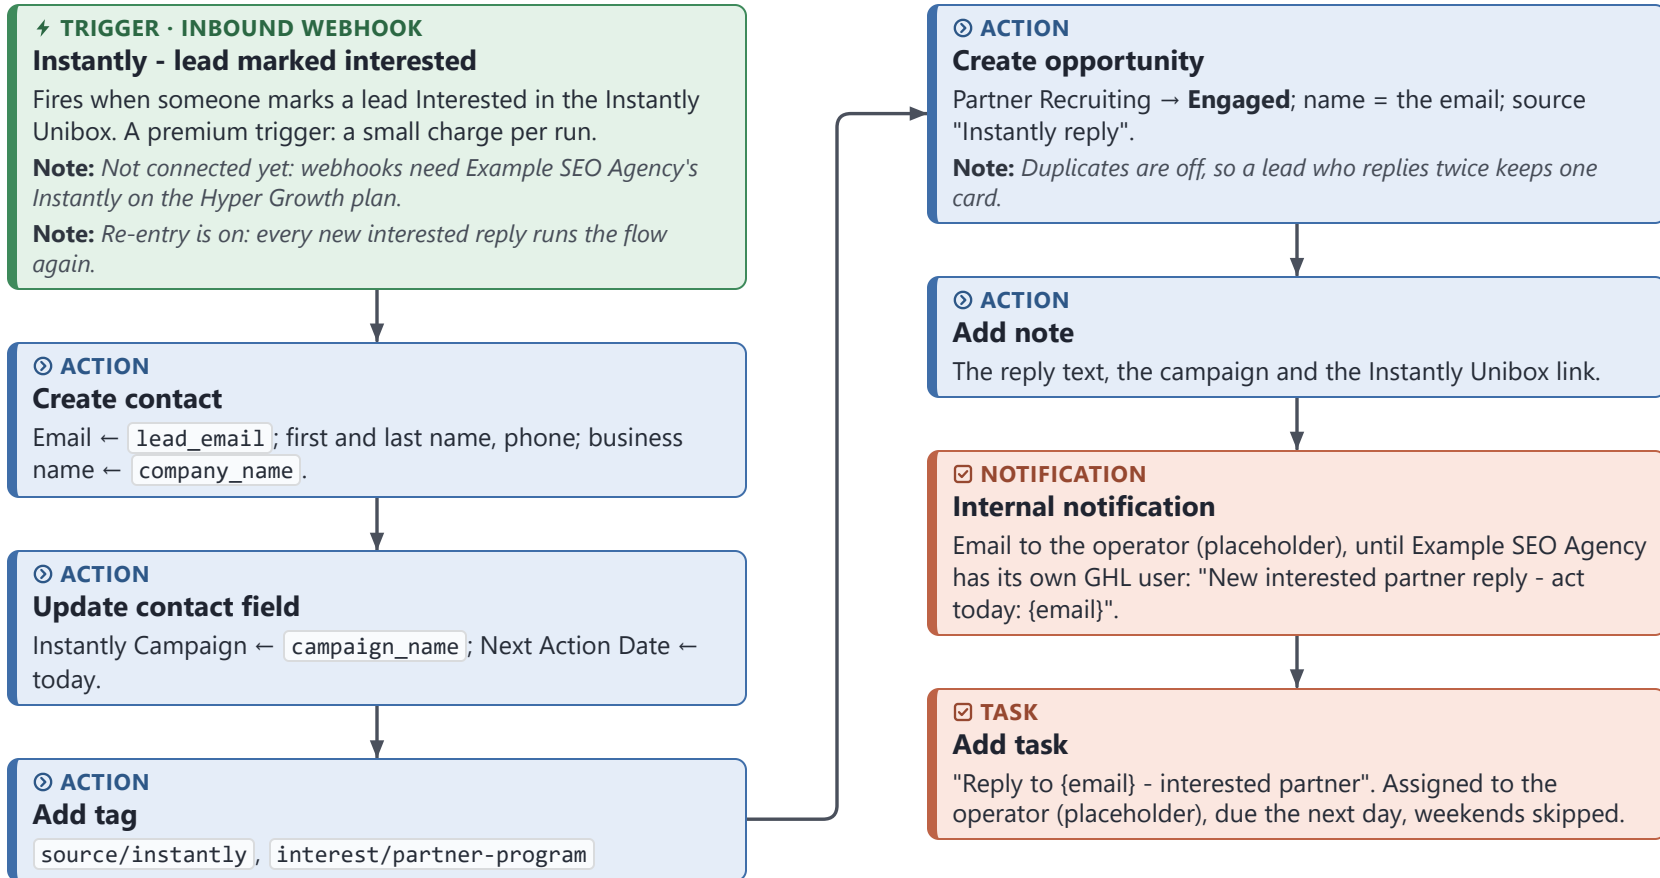

SIDE STAGES: A DEAL CAN MOVE HERE FROM THE MAIN PATH

A person drags the card unless a box says otherwise. Blue box = a workflow puts the deal there. Green box = the stage starts a workflow.

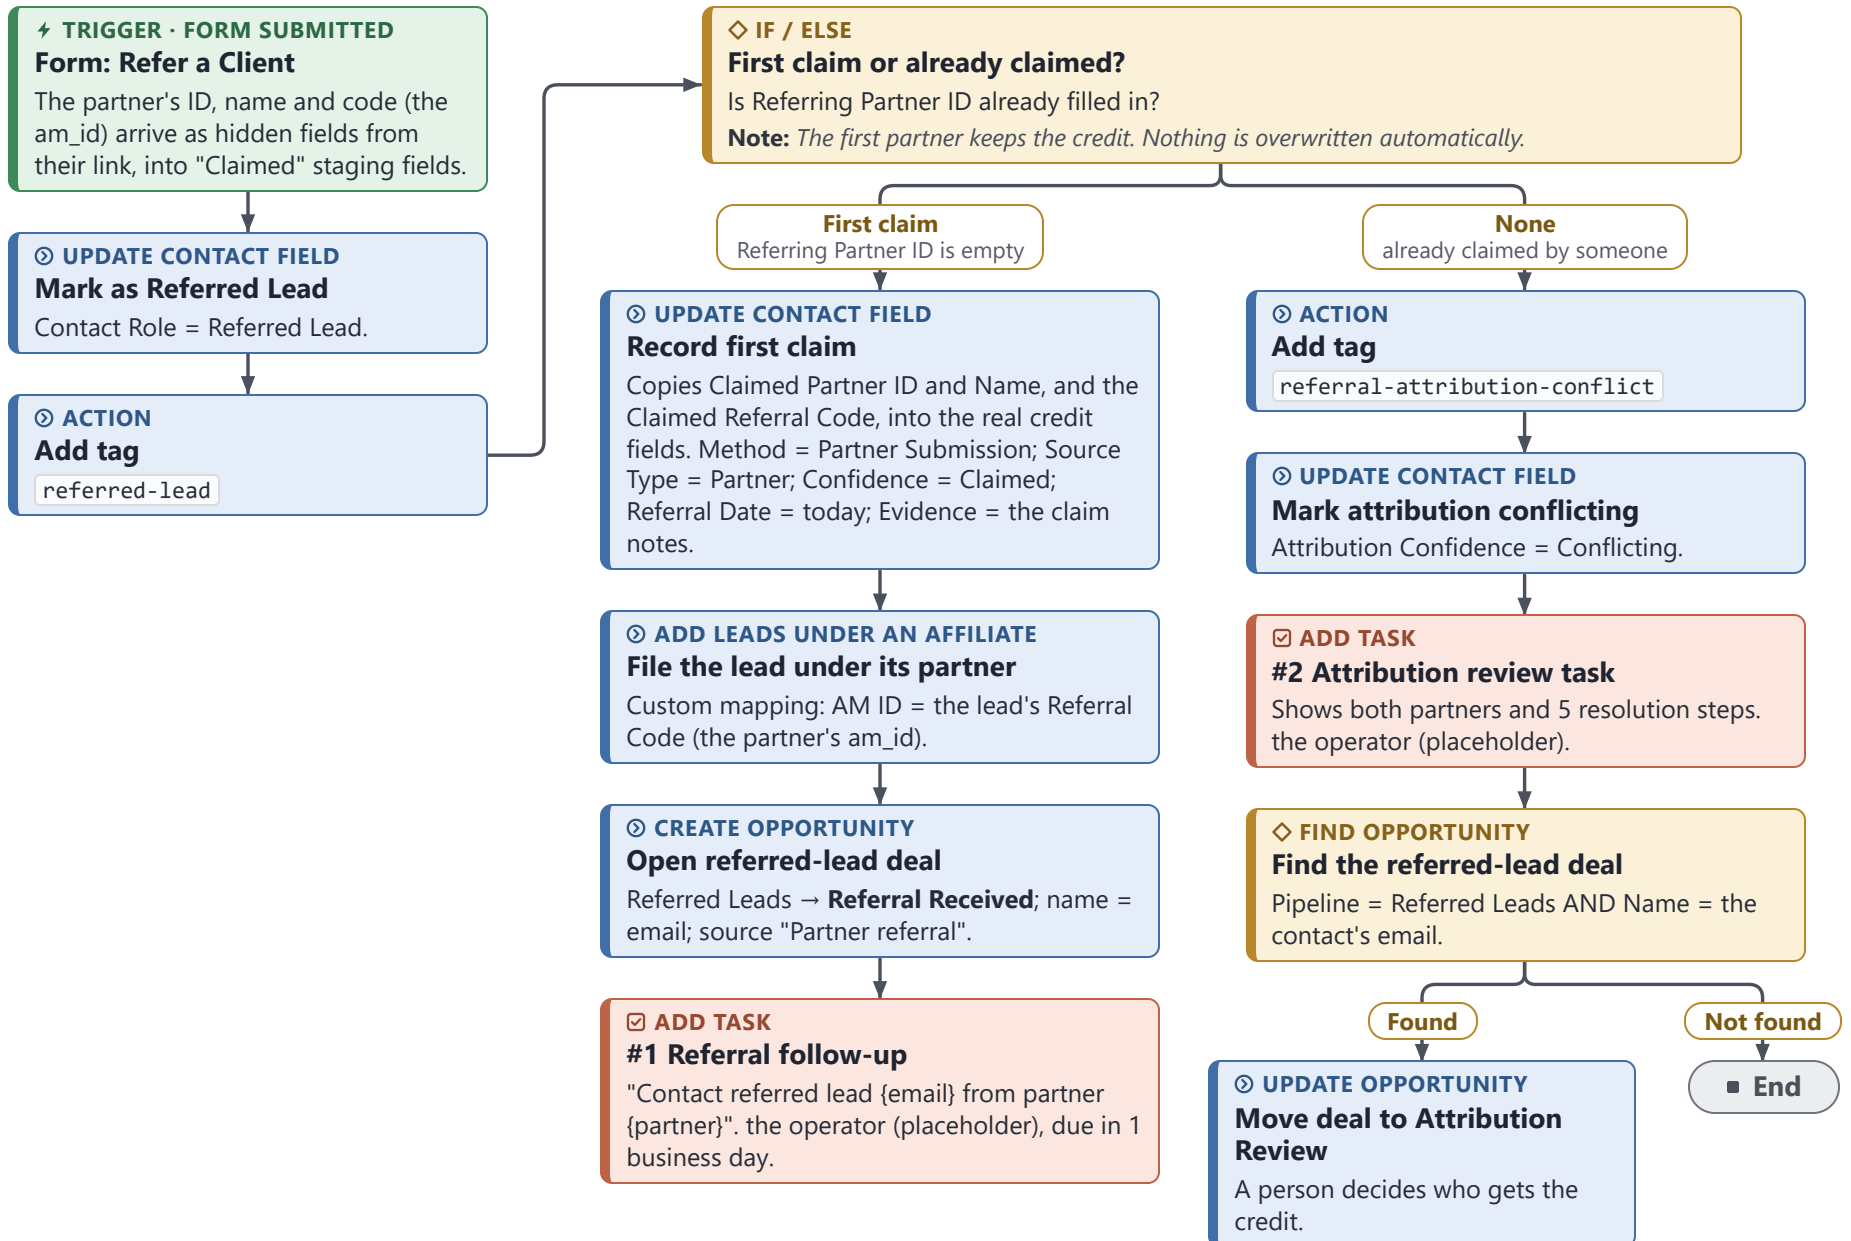

Instantly - Interested Partner Reply

A prospect replies "interested" to Example SEO Agency's cold email. GHIL files it as a partner prospect and asks the operator (placeholder) to reply today.

Referral Engine - Referral Capture

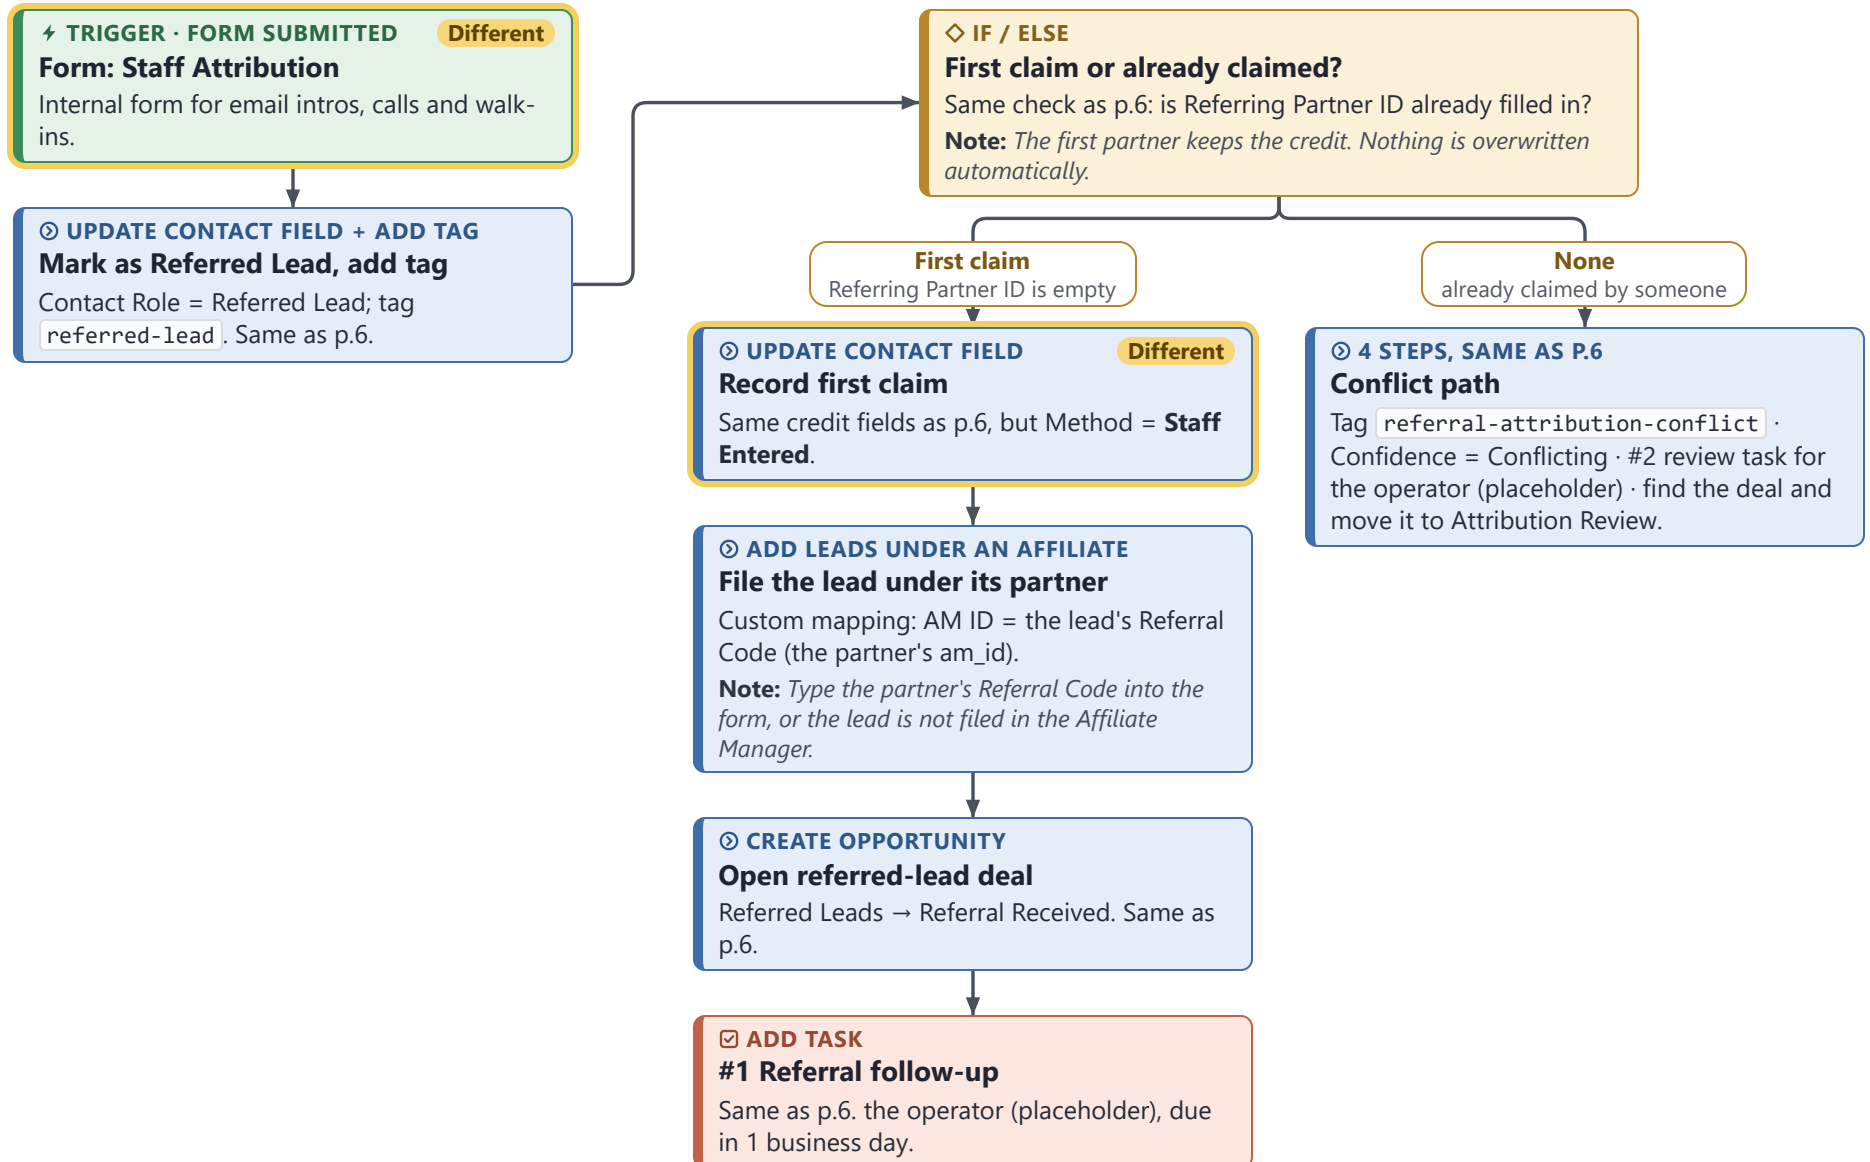

A partner registers a client through their personal link. The first partner to claim a client gets the credit, in the credit fields and in the Affiliate Manager.

Referral Engine - Staff Attribution

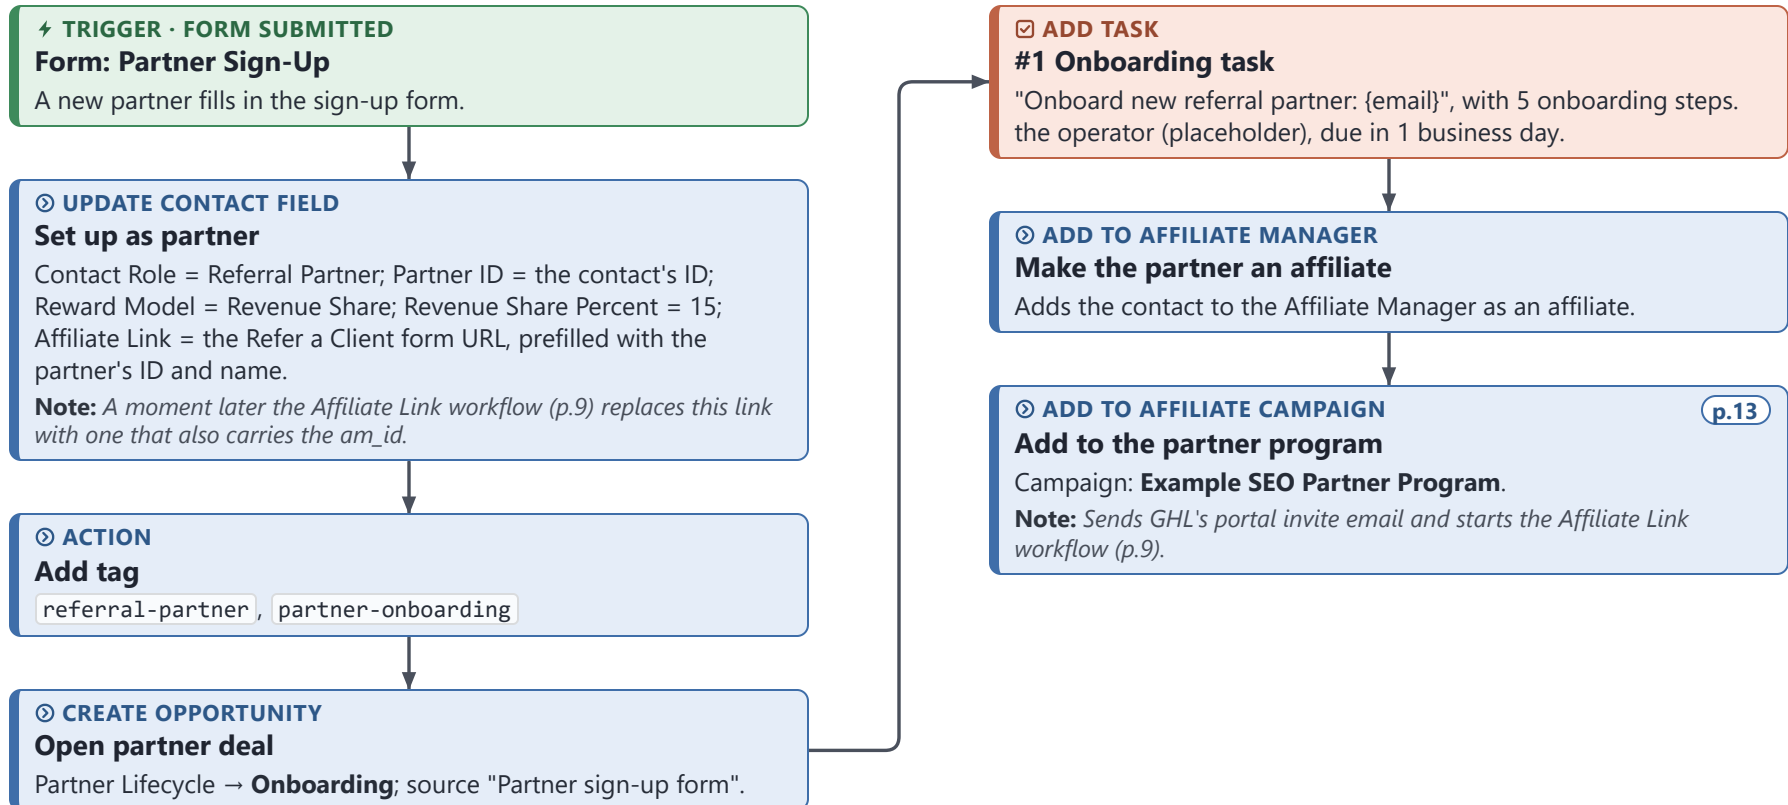

Staff log a referral that came in by email intro, phone call or walk-in.

Identical to Referral Capture (p.6) except two things: the trigger form is **Staff Attribution**, and Method = **Staff Entered**. Highlighted boxes are the differences.

Referral Engine - Partner Sign-Up

A new partner signs up. GHL sets them up at 15%, gives them their personal referral link and adds them to the Affiliate Manager.

Referral Engine - Affiliate Link

A partner joins the affiliate campaign. GHL writes one link that feeds both systems: the credit fields read the Partner ID, the Affiliate Manager reads the am_id.

⚡ TRIGGER · AFFILIATE ENROLLED IN CAMPAIGN

Campaign: Example SEO Partner Program

Fires when a partner joins the campaign. The Partner Sign-Up workflow (p.8) adds each new partner.

🔄 UPDATE CONTACT FIELD

Write the partner's affiliate link

Two fields. **Referral Code** ← their am_id. **Affiliate Link** ← GHL's affiliate referral link (the Refer a Client form + `?am_id=` their Referral ID) + `&claimed_partner_id=` their contact ID + `&claimed_partner_name=` their first and last name.

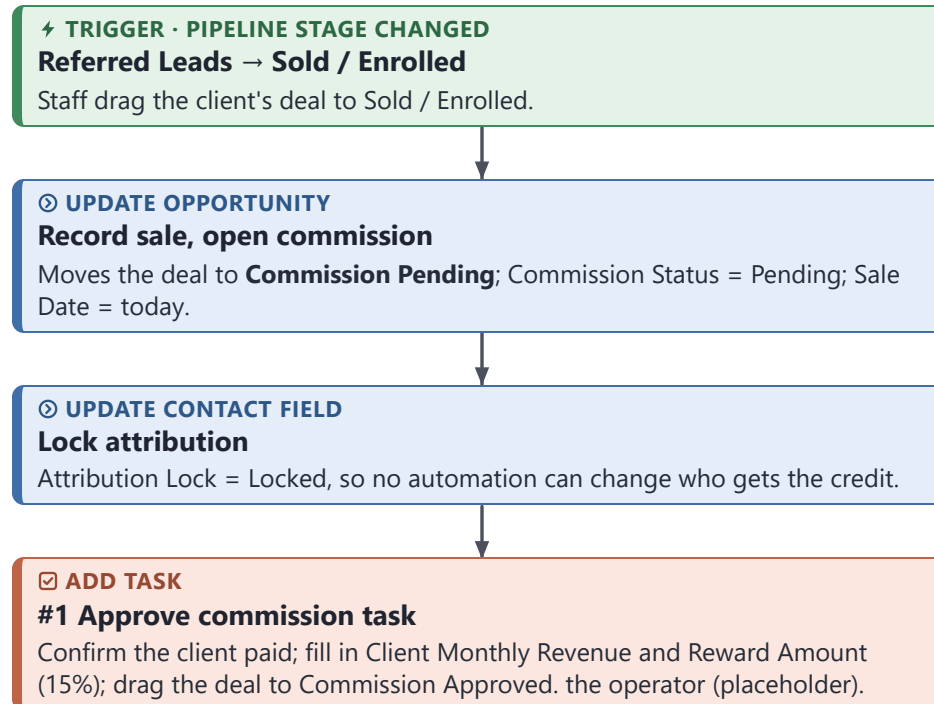

Note: It overwrites the link that Partner Sign-Up wrote a moment earlier, which has no am_id.

Note: Tested Sep 22: a test partner got their Referral Code (their am_id) and a link carrying the am_id, their Partner ID and their name.

■ End

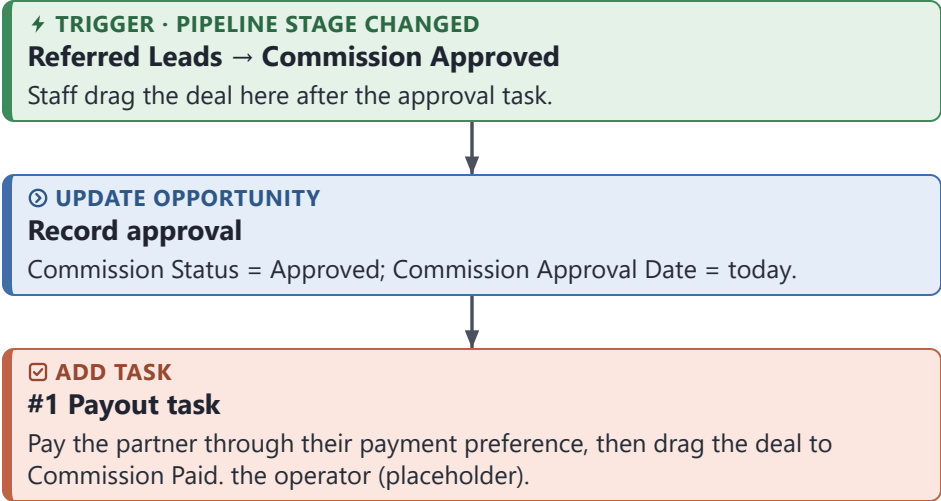

Referral Engine - Commission 1: Sale

The referred client signed. Opens this month's commission and locks who gets the credit.

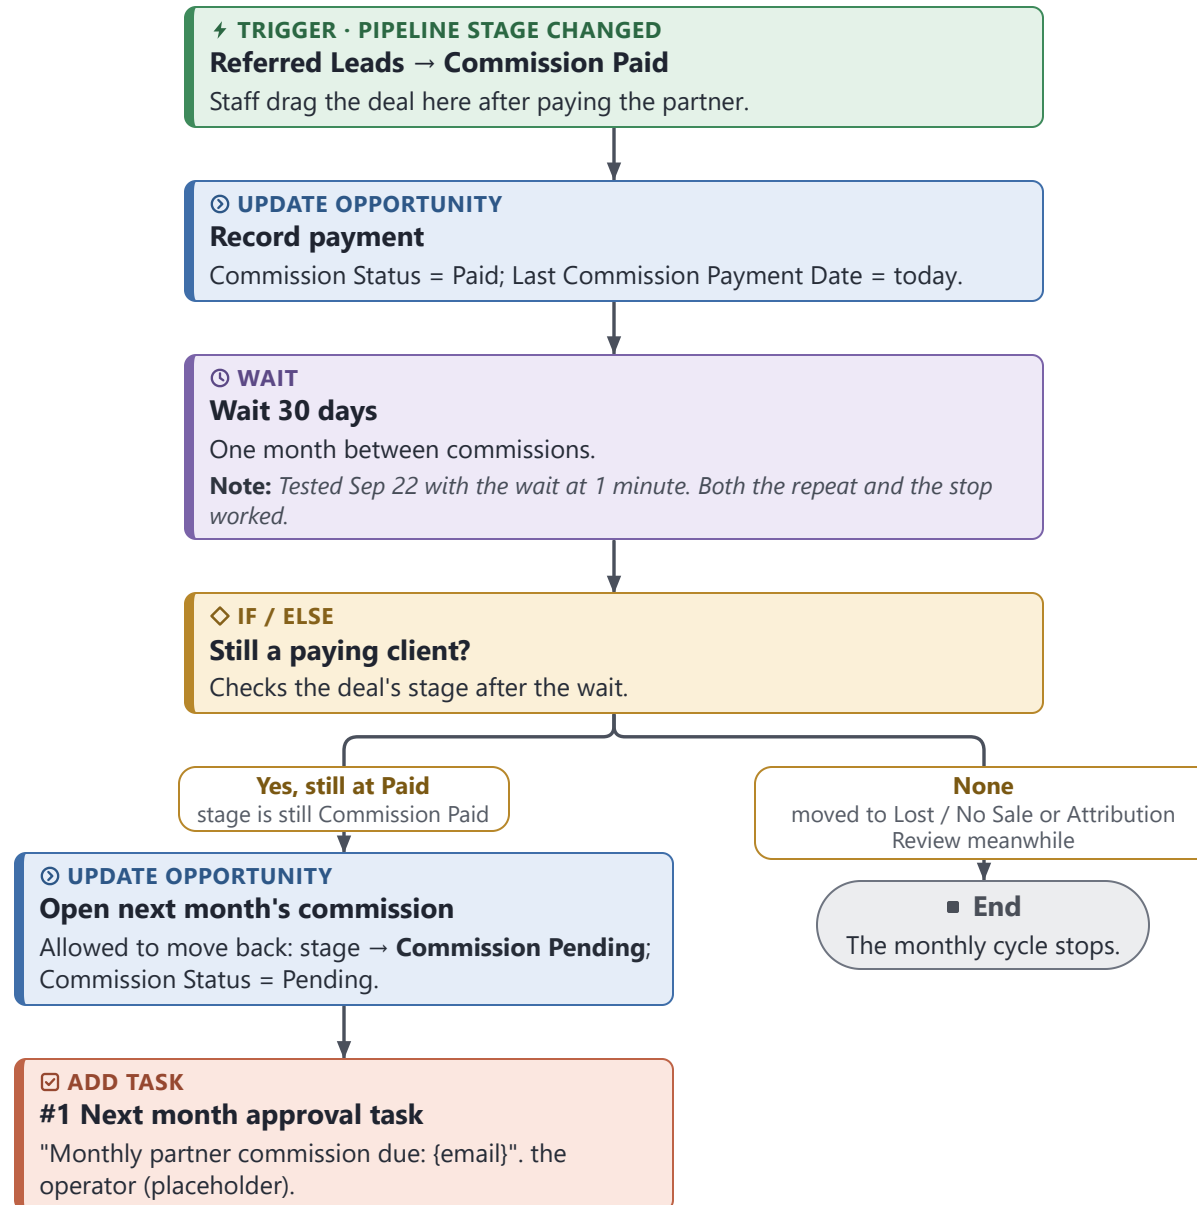

Referral Engine - Commission 2: Approved

Staff approved this month's commission. GHIL records it and asks for the payout.

Referral Engine - Commission 3: Paid, monthly repeat

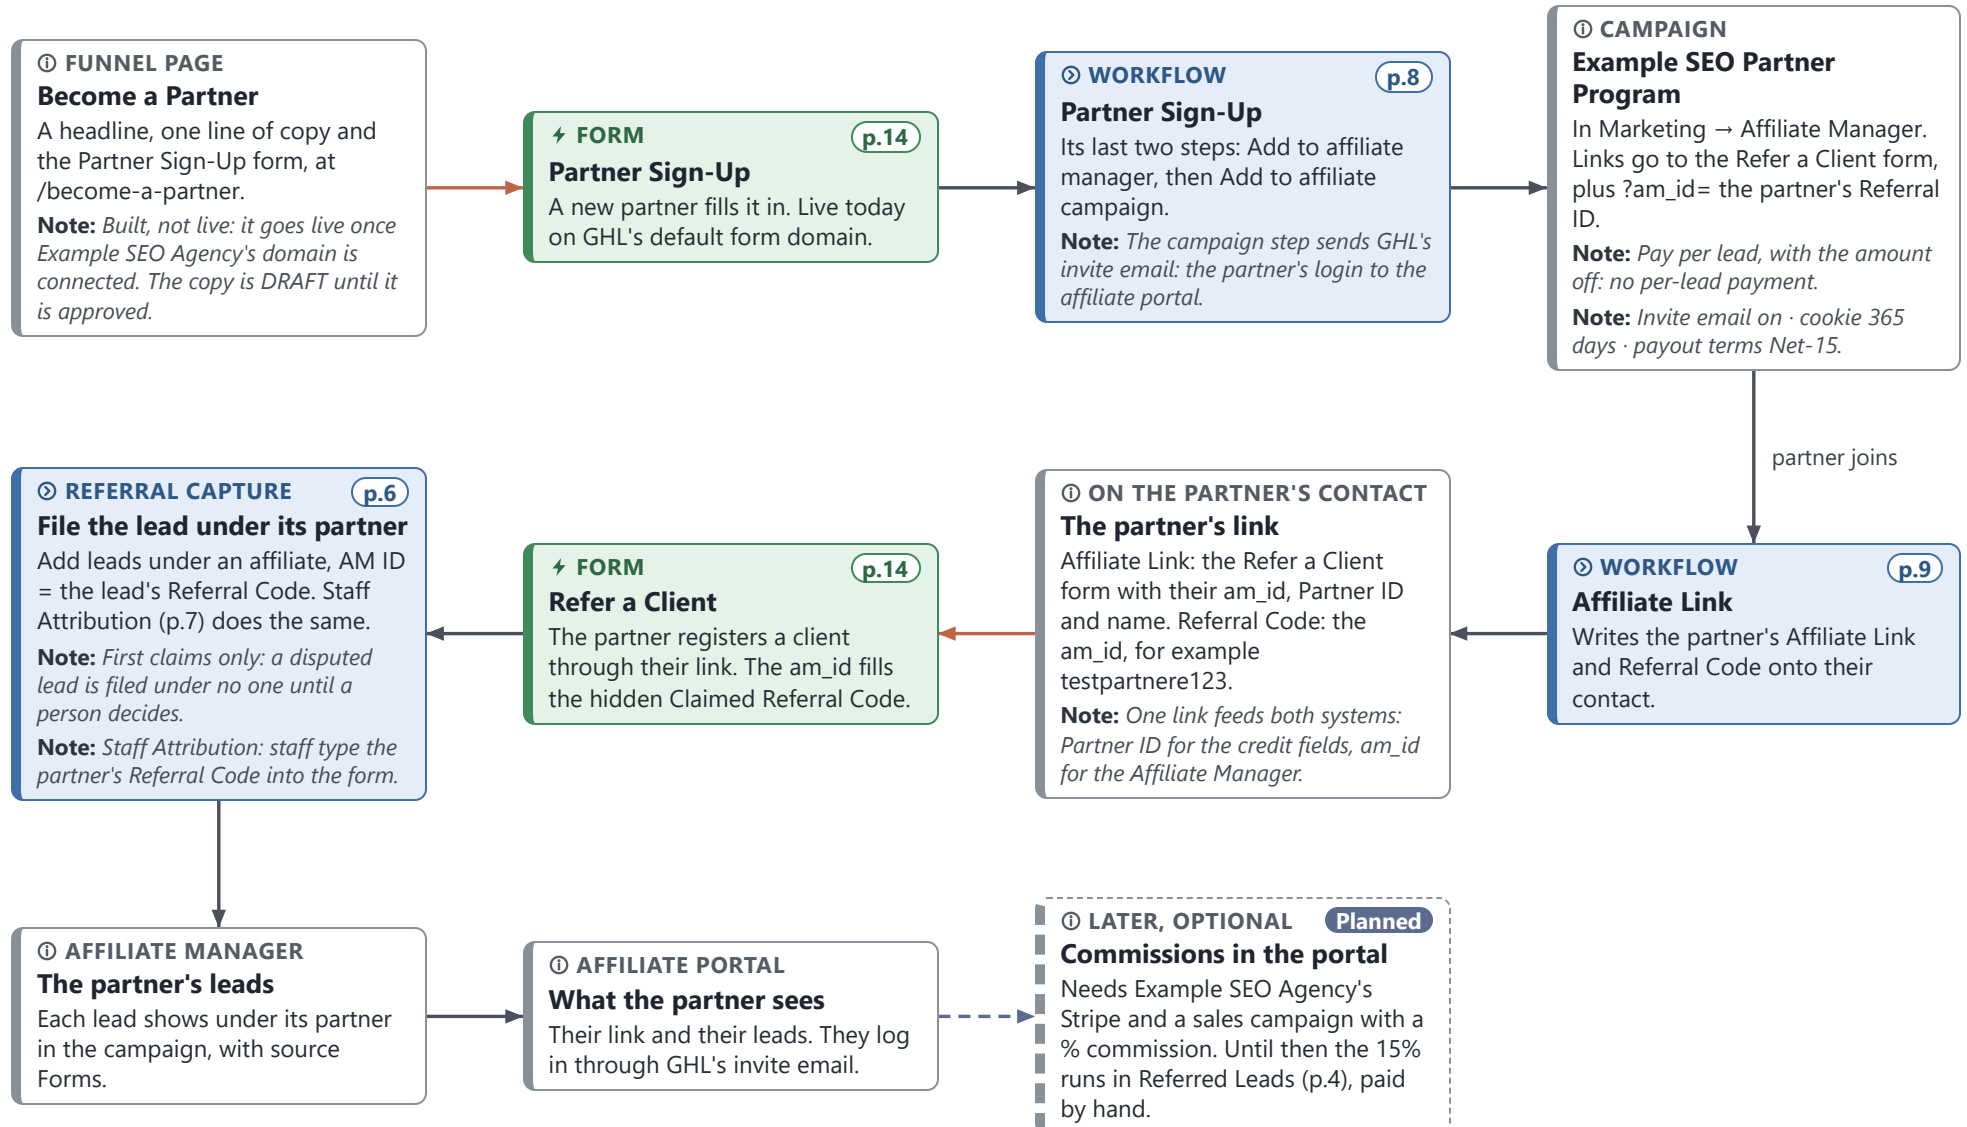

The partner was paid. A month later the next commission opens by itself, unless the client has left.

Example SEO Partner Program

GHL's built-in affiliate program, added on top of the referral engine.

Tested Sep 22: a test partner signed up and got the combined link. A client referred through it was credited in the referral fields and filed under the partner here. Commissions stay in the Referred Leads cycle (p.4), paid by hand.

Forms, calendar and tags at a glance

Forms (3)

⚡ FORM

Refer a Client
The partner registers a client. Hidden fields fill from their personal link: their ID and name, and the Claimed Referral Code from `am_id`.

Runs Referral Capture (p.6)

⚡ FORM

Partner Sign-Up
A new partner signs up and gets their personal link.
Note: Also on the Become a Partner funnel page: built, not live until Example SEO Agency's domain is connected.

Runs Partner Sign-Up (p.8)

⚡ FORM · INTERNAL

Staff Attribution
Staff log email intros, calls and walk-ins.
Note: Type the partner's Referral Code into Claimed Referral Code, or the lead is not filed in the Affiliate Manager.

Runs Staff Attribution (p.7)

All three use GHL's default form domain for now. They can move to Example SEO Agency's domain once it is confirmed.

Calendar (1)

📅 CALENDAR

Partner Intro Call
20 min, Mon and Tue. 10-min buffer, 2 hours' notice, up to 30 days ahead, auto-confirm.
Note: Owner: the operator (placeholder). The 10 AM–5 PM hours and the empty meeting link are placeholders too, for Example SEO Agency to set.

Tags (32)

📌 TAG GROUP · 4

source/
`instantly` `linkedin-outflo`
`referral` `manual`

📌 TAG GROUP · 8

segment/
`web-design` `graphic-design`
`print-shop` `ppc-agency`
`social-media-agency`
`email-marketing` `pr-publicist`
`other`

📌 TAG GROUP · 5
